

Today's energy savings. Yesterday's warmth.

Elegant and decorative

Now you can offer an energy-saving alternative to traditional environments. The Candle Series bulbs fit traditional sockets in virtually any legacy sconces and chandeliers. They're an excellent choice to add a touch of elegance, delivering incandescent-like ambience to residential areas, hotels and restaurants. They last 25 times longer than traditional incandescent candle-style bulbs, delivering energy savings of up to 80%.*

Key Features:

- Similar light quality as incandescent candles
- Virtually no UV/IR in the beam
- Full-range smooth dimming to 10% of full light levels**
- 25x longer life than traditional incandescent

Benefits:

- Creates an elegant ambience
- Reduced maintenance costs in hard to reach places
- Low energy use - sustainable for the environment

APPLICATIONS

Residential, Office, Hospitality, Restaurant, Bar and Cafe (Suitable for decorative lighting and chandeliers)

*Based on LM79 life rating of 25,000 hours compared to incandescent at 1,000 hours.

**Please refer to spec sheets for more information.
