FORMULATED WITH NATURAL
PLANT EXTRACTS AND ALL
NATURAL PENETRATIVE AGENTS

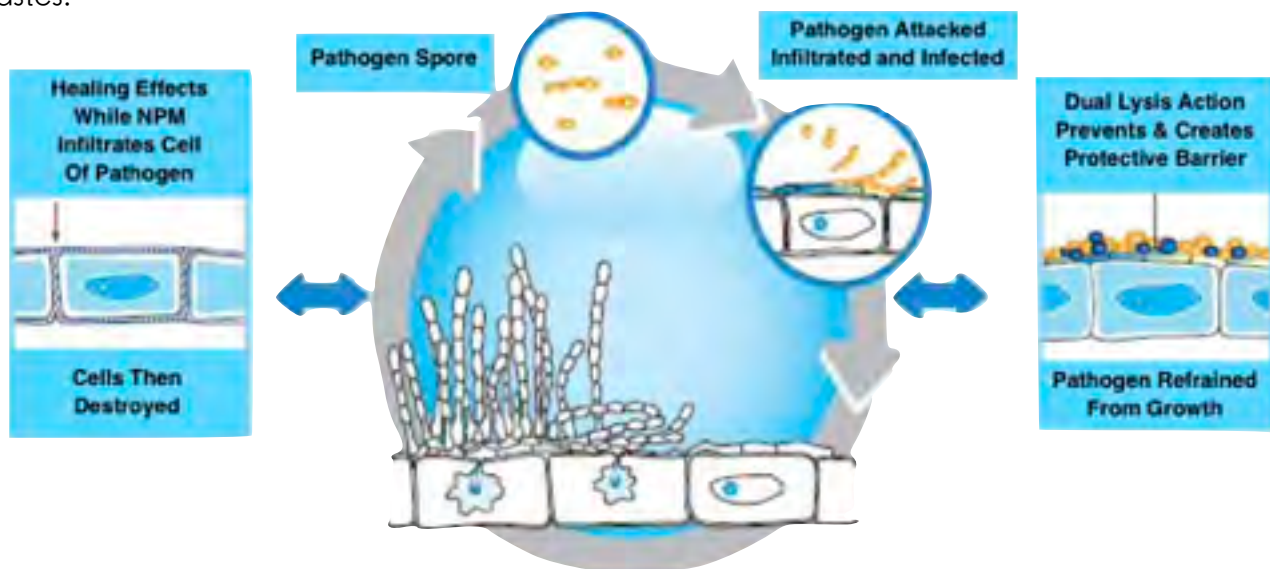

Attack Your Powdery Mildew Outbreak With A 98% Efficacy Rate Upon 1st Application

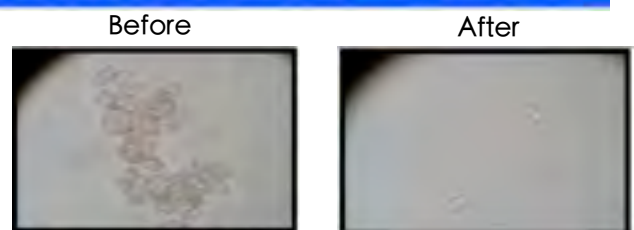

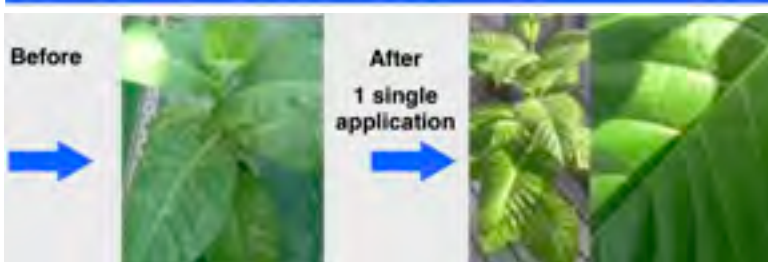

Use No Powdery Mildew™ Anytime Up To Day Of Harvest!

No Powdery Mildew™ attacks powdery mildew spores immediately and on contact. Powdery mildew spores do not stand a chance against the powerful, scientifically advanced, nano surface technology. Simply put, **No Powdery Mildew™ JUST FLAT OUT WORKS!**

No Powdery Mildew™ dual lysis actions attacks powdery mildew spores at the mycelium. Then, No Powdery Mildew™ destroys the powdery mildew cell pathogen while simultaneously providing your valuable crops with a natural plant extract barrier of protection. Our natural plant oil and extract technology evaporates completely while leaving your valuable fruits & vegetables free from harmful chemical, odors, aroma' or aftertastes.

No Powdery Mildew™ Induces Imbalance Of K-Ion Inside Mycelium and Retrains Spore Germination and Mycelium Proliferation

The above photo demonstrates the restriction of spore germination after one single application of No Powdery Mildew™. No Powdery Mildew has 98% efficacy rate on the restriction of further spore germination upon 1st application.
