

DESCRIPTION

Improve the lighting in your space by installing these Spec Grade architectural LED downlight fixtures with their compatible trims. Each engine's integrated junction box with isolated driver and flexible conduit whips eliminate the need for traditional housing, making it an ideal choice for hardwired lighting in new constructions and remodels.

FEATURES

- Energy efficient replacement for 175W metal halide fixtures
- Light output will vary depending on the wattage selected, see Selectable Table for more information
- Can be paired with 6, 8, or 10-inch aperture regressed round aluminum trims (sold separately); see Compatible Trims section for list of compatible trims
- Does not require recessed housing
- Requires mounting plate; see Mounting Accessories section for list of compatible mounting plates
- Dimmable with 0-10V dimmers; see Compatible Dimmers section for full list of compatible dimmers
- Wattage can be adjusted via switches on the external driver of the fixture; see installation instructions for more information
